

Oxygen Medicine

VS

Viruses

&

"Retroviruses"

In a brief to the ***NATO Blood Committee***, the Surgeon General of the Canadian Armed Forces announced that... "a 3-minute **OZONATION (O3)** of serum spiked with one million **HIV-1** particles per milliliter would achieve virtually **100% viral inactivation.**"

Ozonized (O3) biologic fluids, in which there is a presumed abundance of superoxide, **Singlet Oxygen (1O2)**, hydroxyl and peroxy radicals and other highly reactive species, had both extracellular and intracellular virucidal properties.

The study also found that the **(O3/O2)** procedure would destroy several other lipid-encapsulated viruses, including **Simian Immunodeficiency Virus (SIV)** and various **other viral strains** of interest to **VETERINARIANS**:

- **Bacteria** - *Aeromonas Hydrophila* - *Coliform Bacteria* - *Staphylococcus aureus*
- **Coxsackievirus**
- **Echovirus**
- **Fungi** - *Candida Utilis*
- **Hepatitis Viruses**
- **Herpes Viridae** - *Simplex*, *Varicella-Zoster*, *Cytomegalovirus*, *Epstein-Barr Virus*.
- **Lipid-Encapsilated Viruses**
- **Orthomyxoviridae** - *Influenza*
- **Paramyxoviridae** - *Mumps*, *Measles*
- **Retroviridae** - *Human Immunodeficiency Virus (HIV)*, *Simian Immunodeficiency Virus (SIV)*, *Anemia Virus*, *Equine Infectious Virus*
- **Rhabdoviridae** - *Rabies*
- **Polioviridae**

Two teams of US virologists have used comparable **(O3/O2)** gas-diffusion techniques to confirm the Canadian findings.

In Germany: **10,000+** units of human blood containing **hepatitis virus** were rendered safe through treatment with a mixture of **Ozone (O3)** and **Oxygen (O2)** for transfusion.

In Germany: A review of **300,000 patients** who were given more than **5 million Ozone (O3)** treatments concluded that when strict protocols were followed the rate of adverse effects was **0.000007%** and that there was **no evidence of carcinogenicity.**"

- Jacobs MTH: Untersuchung über Zwischenfälle und Typische Komplikationen in der Ozone - Sauerstoff Therapie (Aufzug APRIL 1, 1993 CAN MED ASSOC J 1993; 148 (7) 1159 auf der Dissertation). Ozo Nachrichten 1986; 1: 5

In Italy: 27 **herpes** patients with intravenous injections of **(O2) Oxygen** and **(O3) Ozone...** all patients healed completely after a minimum of one and a maximum of five injections. Five years later 24 of the 27 were still outbreak free. Re-infection was suspected in the other three.

- Dr. R. Mattassi, Division of Vascular Surgery, Santa Corona Hospital, Milan, Italy

In Cuba: Fifteen adults patients suffering from **herpes zoster** were treated with injections of **O3 Ozone / O2 Oxygen** for a period of fifteen days. All patients were completely symptom free after the treatment AND follow-up examinations a year later showed not one relapse."

- Center of Medical and Surgical Research, Havana, Cuba

In United States and Canada: It is well documented that **hypoxia (lack of oxygen)** occurs with **HIV** and **herpes infections**, which attack the circulatory and nervous system. Changes in tissue coloration (especially the hands and feet), often aggravated by temperature changes, occur in **HIV-positive** person.

Hyperbaric Oxygen Therapy (HBOT) reverses these symptoms and increase circulatory perfusion.
